

How to burn files to disc using Roxio Central Data

HT30600010

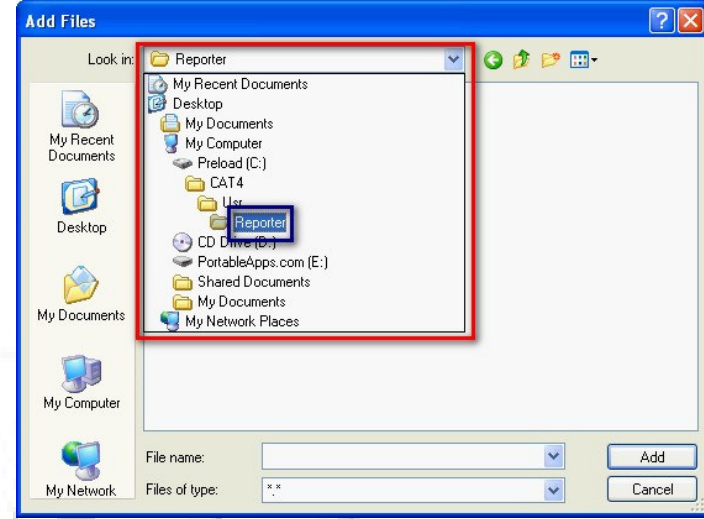

OS: Windows XP

Keywords: burn, file, disc, roxio, central, data

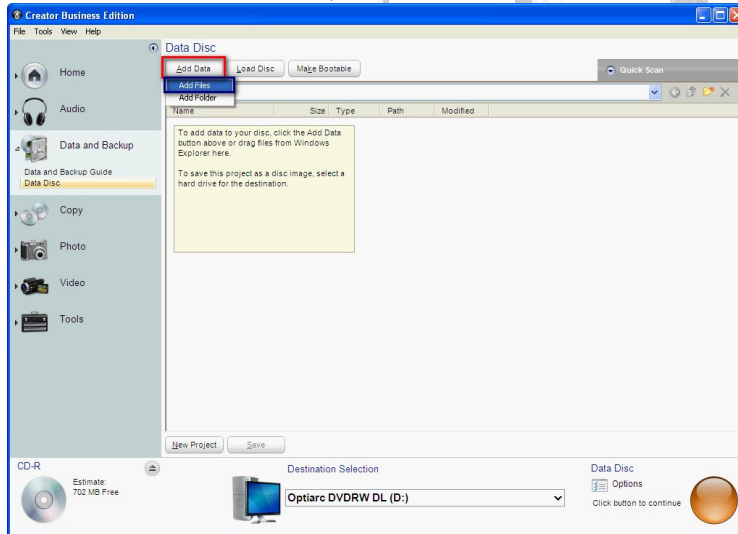

1. Insert a blank CD and wait for the menu. Click **Add Files** and then **Ok**.

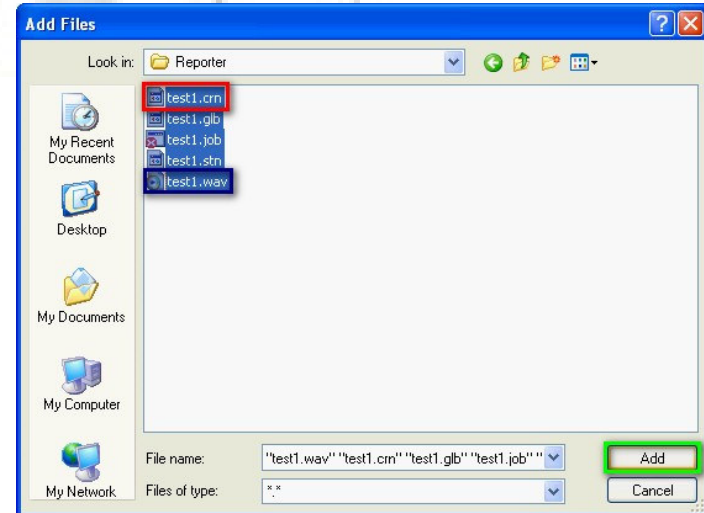

3. Click on the **Look in:** box to locate your user folder.

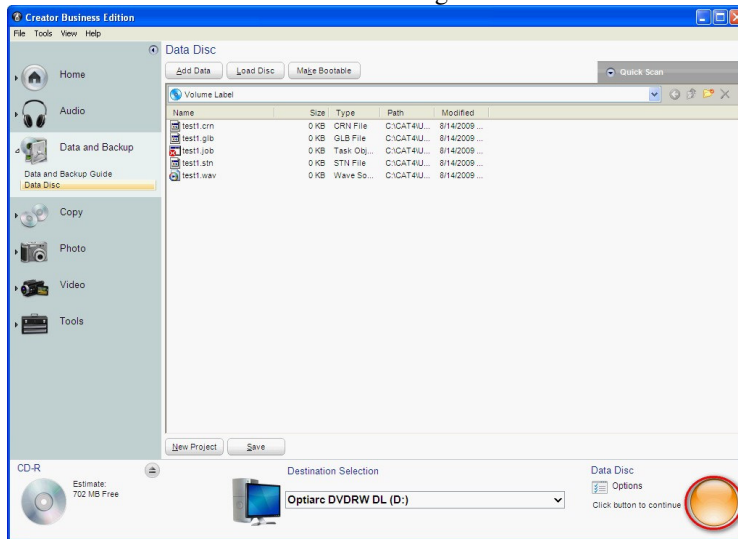

2. Click on the **Add Data** button, and then **Add Files**.

4. Click on the first job in the series. Hold down **Shift** and click on the last file. This selects all files in between. Click on the **Add** button.

5. Click on the **Burn** button in the lower right corner.

7. When asked to save, click on **No**.

6. When complete, click on the red X in the upper right corner. Your disc should have been ejected from the tray.
